Efficient fleet management with just one click

ECO TRONIC TCONTROL
Focus on the most important things: your products and your efficiency.

The telematics specialist idem is a perfect partner for BPW. Both companies can now connect each others competencies: ECO Tronic TCONTROL combines knowledge about intelligent sensors and advanced telematics solutions with the extensive know-how for intelligent running gear systems. The new electronic functions improve the efficiency of your trailer and increase the economic viability.

Less is really more
ECO Tronic TCONTROL provides you with the exact information that you need for the operation of your vehicle. Clearly arranged and in real time. With evaluations that are important to you. ECO Tronic TCONTROL sends you the pre-set alarm messages via e-mail, SMS and the mobile app to give you more flexibility. Reliable. Day and night.

Your benefits with ECO Tronic TCONTROL:
- Network Load quality security
- Connection with the worldwide BPW service
- Increased efficiency in disposition
- Legally compliant documentation
- Monitoring of vehicle technology
- Preventive Maintenance
- Error message analysis
- Simple monitoring through manufacturer-independent telematics portal
- Configurable alarms via e-mail, SMS or App
- Reduction of operating costs
The telematics solution with integrated tyre pressure control.

100 % control
Did you know that the tyre costs are very low compared with the acquisition costs of your trailer? However, they have a major impact on the fuel consumption and operating costs. Our tyre pressure control system integrated in ECO Tronic TCONTROL constantly checks the tyre pressure and temperature and alarms you when limits are exceeded. Wear and tear and fuel consumption can be significantly reduced, which allows you to save resources and protect the environment.

60 %
of all commercial vehicles have insufficient tyre pressure

20 %
lower tyre pressure increases fuel consumption by 2 %

1,000 €
per year

can be saved with the right tyre pressure per vehicle in one year (mileage 100,000 km)
This is how ECO Tronic TCONTROL works: Individual. Reliable. Around the clock.

Real-time information is sent to the manufacturer-independent telematics portal. The existing solutions can be easily integrated. All relevant information concerning your vehicles is compiled according to your needs. Special emphasis is placed on the analysis and evaluation: in order to increase the efficiency of your fleet and to avoid downtime.

The BPW TCONTROL app
Shows all details about your vehicle at one glance and sends alarms directly to your mobile terminal.
